## Profile

I am an undergraduate student from UIN Sunan Gunung Djati. During college, I became one of the best graduates of the JABARCODINGCAMP scholarship organized by the government of West Java. Later, I also took many online courses focused on backend (Laravel, Golang, NodeJS), frontend (HTML, CSS, Javascript), and mobile app development (React Native). I was eager to learn something new such as algorithms, the latest technology, and others.
